## Hold Senior Citizens Fun Day

Grayling Senior Citizens were host to 335 Senior Citizens from out of town within the Northeast District on June 3, 1970 for a M.R.P.A. and Grayling Northeast District Fun Day.

Registration took place at Ausagra Acres at 9:30 a.m. The visitors played shuffleboard, horseshoes and skittles, toured the housing units, as well as looking over the Arts and Craft displays. Coffee and rolls were served to all.

At 11:00 a.m., 297 of the 335 rode "Little Smokey" and 289 visited Bear Museum.

At 1:00 p.m. a lovely lunch was served at the Officers Club by the American Legion Auxiliary. They had to prepare the food at the Legion and transport it to the Officers Club and a group of local ladies, headed by Mrs. Terry Wakeley, served the lunch and did a remarkable job under such crowded conditions.

We had only planned on from 150 to 200 to begin with when plans were made, but had to change from the Legion Hall to the Officers Club when reservations came in for over 300.

Rosella Neumann of Alpena was our song leader for old familiar songs sung throughout the afternoon, from mimeographed song sheets. June Feldhauser was piano accompanist. (See Senior Citizens on Page 10)

## Do You Want Red Cross In Crawford Co.?

The Annual Meeting of Crawford County Chapter of The American Red Cross will be held Wednesday, June 17, at 1:30 p.m. at the American Legion Hall. This is important to all County and City residents. We are asked to find a new Chairman as Mrs. Morse has asked to be replaced as of July 1.

This is the beginning of a new year and the workers who have carried on the work need the help of new people. Red Cross supports the Blood Bank Program twice a year. Service to Military families have two workers who send and receive messages to and from our boys in service around the clock and around the world.

Red Cross supports and maintains a Loan Closet, Beds, Wheel Chairs, etc. which are available for the asking. No charge. One lady had a bed for six years which was recently returned. Some new equipment is needed.

Any of you who are interested in keeping our Red Cross program alive, please attend and offer your help. I am sure our hospital does not want to see these important services go by the wayside.

# Guardsmen In Training

**HONORED BY FELLOW BUS DRIVERS** — At a dinner held at the Frederic Inn Thursday evening, June 4, Charles Thompson, shown at right, was honored by his fellow bus drivers of the Crawford-Ausable School District as "school bus driver of the year." Here he receives a plaque from LeRoy Akers, Bus Supervisor. Charley has been a bus driver for five years and drives a 131 miles a day in the Frederic-Lovells-Maple Forest area, he drives approximately 22,000 miles a year. His kindness, thoughtfulness and always willing to offer a helping hand, inspired his co-workers to so honor him. Besides other bus drivers and their wives, school administrators, Sgt. John Hughes of Gavlord State Police Post, Sgt. Thomas Graham and Cpl. Larry Glover of Houghton Lake Post and Grayling Chief of Police, Harold Hatfield attended the fete.

National Guardsmen from Michigan and Ohio will join forces this Saturday as they open the summer encampment for this year at the sprawling confines of Camp Grayling.

4022 citizen-soldiers from the Buckeye State will have 647 guardsmen from Michigan training with them during the first two weeks of army field training throughout the county.

Upwards of twenty-five thousand and Army National Guardsmen and Army Reservists will be at Camp Grayling this summer for Annual Field Training. The Guardsmen are from Ohio, Indiana, and Michigan.

There are four two-week encampments scheduled for the citizen soldiers. Ohio National Guard units, comprising 5,200 Guardsmen, and one Michigan Army Guard unit (1Bn (Mech) 225 Inf., Detroit) will occupy Camp Grayling for the period 13-27 June.

About half of Michigan's 10,000-man Army Guard force will be in camp from 11 thru 25 July while the remainder will train the following two weeks with Indiana Guardsmen (25 July - 8 August).

Another 4,000 Ohio Guardsmen move into Grayling on 8 August, and will remain in camp until 22 August.

Michigan Guardsmen will be engaged in Annual Field Training for a minimum of 88 hours during the 13 day period. During this time they will be involved with maintenance, physical conditioning, chemical, biological and nuclear defense, night operations, and intelligence training.

The intelligence training will thoroughly indoctrinate the individual soldier in the techniques of observing and reporting information on the enemy - his equipment, techniques, and tactics. The individual soldier will also be indoctrinated in intelligence procedures as they apply to civil disturbances.

Some units will be in the field for four days and nights on a tactical bivouac. During the bivouac, camouflage, security and protective measures, dispersion, tactical feeding, field sanitation and personal hygiene, and light and noise discipline will be practiced.

Army Training Tests will be employed to check the proficiency of Guardsmen. Regular Army personnel from 5th U. S. Army plan to conduct the tests on battery, company, platoon, or even section level as required.

## Crawford County Recreational Activities

High waters on all branches of the Ausable River and tributaries did not stop the hatches of Drakes and Stone Flies this past week. Every evening and morning the hatches have continued and Trout fishing with flies has been excellent on the Quality Sections of the Ausable Watershed.

Spincasters and bait fishermen had a "field day" during the high water periods, and many record catches were reported.

Water levels dropped rapidly during the weekend and normal water levels are reported on all rivers, and water is clearing rapidly.

Canoeing on the 200-miles of canoeing trails is a popular recreational pastime, and a early morning canoeists have the opportunity of viewing the birdlife and wildlife that abounds on the banks of the rivers of Crawford County.

Trail driving is a popular pastime and early morning and evening riders may spot the northern Whitetail with their newly born fawns. "Look, but don't touch." The mother deer is always close by the spotted fawns. **PRESERVE OUR ENVIRONMENT**

This award program will be held in the high school gym.

This change is necessary because grades are being reported via data processing this year. ## Start Stream And Lake Shore Protection Now

By Willard Bosserman  
County Extension Director

Don't lose your valuable waterfront property to the forces of erosion. Start plans now to protect it.

One good place to start is to call in some professional people to help design proper structures. Department of Natural Resources personnel can give technical advice. They will be brought in eventually before your permit to build is granted.

Kenneth Neep, District Conservationist can give valuable assistance in designing erosion control devices.

Two types of structures work best on river property. One is a log jam revetment. It gives an additional premium in providing excellent trout hiding cover.

Stone rip-rap will give excellent erosion control against the river's current and against wave action from the lake. Stone rip-rap helps keep the water clear of organic sediments which are eroded into the water by waves working on the lake shore.

Willows, dogwood and reed canary grass can be used along or in conjunction with log jams or stone revetments. Where the erosion problem is not severe the vegetation will suffice. Vegetation used with the revetment helps give them a natural appearance.

Ice erosion is a hazard on the lake shores. Large stones in the revetment gives some protection. Lowering the water level in the fall is about the best protection against ice damage.

A concrete sea wall with a 45° angle or less will give the most protection obtainable from a structure.

Obtain an application for a permit from your District Department of Natural Resources field office before starting any structure.

## Bring A Car For Test, Cyclist Told

LANSING — Michigan's estimated 400,000 motorcyclists... when qualifying for their motorcycle endorsements in the course of obtaining their first driver licenses or at normal renewal time... must also make sure they furnish a car with a licensed driver when they go to take their road test.

The car and driver will be used by the local license examiner in following the applicant over a prescribed route during his motorcycle driving test.

In the case of the person applying for his first driver license, he must also make sure that the cycle he is going to test on is brought to the exam station. He may not ride it there.

In the case of the renewing driver, he may drive his cycle to the exam station providing it is before or on the day of normal renewal. If he is late, he must also see to it that the cycle is brought to the test area.

Under Michigan's new motorcycle laws which took effect June 1, persons who have proven experience in riding a cycle may have the driving test waived if they meet certain criteria.

According to Secretary of State James M. Hare, the road test may be waived if an applicant can certify that he or she has actually operated a motorcycle on the public streets and highways for at least 1,000 miles during the last 12 months prior to application.

However, certification may not get the applicant out of taking a road test. His driving record is checked. If found unsatisfactory, he will be required to take a road test.

The applicant's road test may be waived also if the person has qualified for a special motorcycle license or endorsement in another state and has a valid permit or license at the time of application.

Under the new law, it will be three years before all motorcycle operators are qualified.

Persons who renewed their licenses in late May, will have until their licenses expire before they have to qualify for a cycle endorsement, explains Hare. This is either three years on a regular operator's license or one year in the case of persons with chauffeur licenses that they may legally operate a motorcycle in Michigan without the new endorsement.

Hare said the special cycle endorsement is the first step in Michigan toward classified license in which persons must qualify to handle the motor vehicle they drive.

## Attend The Church Of Your Choice

## LOOKING FOR GOD

Some say you find God just as well in a garden, in the woods, or on a golf course as in a church — that God is everywhere. But be honest about it.

Are you not more apt to think of weeds, or mosquitoes, or a poor shot than you are of God? And after all, you have made this outing to seek pleasure.

But when you go to church, it is with the specific intention of worshipping. Here you engage in prayer, praise and thanksgiving. Here you mingle with people who are seeking God and have come to feel His presence. In the quiet beauty of a church you find few outside distractions, and you know that this place is dedicated to the service of God.

For peace and happiness which comes from really feeling God's presence, worship in the house of the Lord this Sunday — make it a regular practice.

## Flag Day

Serious observers are requesting the durability of the American system. One of these is columnist Stewart Alsop who commented recently that, "A good many normally sensible people . . . are beginning to ask themselves whether the American system might not come apart one of these days, then like Oliver Wendell Holmes' wonderful one-shay. The one-hoss shay, it will be recalled, as built in such a logical way, it ran a hundred years to a day." But it went to pieces all at once—at once, and nothing first, just as bubbles do when they burst." Mr. Alsop concludes that the odds are high that the American system will surmount present difficulties as it has other difficulties in the past.

These reflections of a leading and highly competent viewer of the contemporary scene should make everyone pause and search for little ways in which to exhibit a reaffirmation of faith in the U.S. An obvious opportunity will present itself on June 14 during the nationwide observance of Flag Day. It was on June 14, 1777 that the United States' flag was adopted. For nearly 200 years, it has been a symbol of freedom and justice. On countless occasions, it has rallied the patriotic and unified the nation in the vast crucible of human existence where only the fittest can survive. The right to fly the American flag before our homes and places of businesses is a high honor at anytime — and doubly so on the Anniversary of the birth of the flag.

MILWAUKEE, WISC., TIMES: "What's bothering you may be making you a dangerous man behind the wheel. Simmer down. You can't change the world for the moment, or the guy whose got your dander up. But you can save your own life!"

## Planning Group County Wide

By Willard Bosserman  
County Extension Director

The Grayling-Crawford Regional Planning Commission is now geared for county wide planning. All townships have passed the necessary resolution to become a part of the planning organization.

It became necessary for county wide planning because so many things are being done on a county basis. County planning precedes county zoning. A county building code is being considered. The county wide planning group must review the county parks plan.

Charles Kaufman, District Extension Leader, Resource Development, Michigan State University, met with the planning commission Wednesday, May 20. He was invited by Chairman Mrs. Al Harland to discuss some of the things that the group should be doing as a planning commission. He was kept busy answering questions until after 10 p.m.

The Regional Planning Commission contracted for the comprehensive plan that was one for the city of Grayling and Grayling township upon which their zoning ordinances were based.

The Grayling-Crawford Regional Planning Commission acts as a research advisory group to the county Board of Commissioners, City of Grayling and to the Township Boards.

The planning group in turn can look to the Cooperative Ex-

tension Service, Soil Conservation Service, Health Department, Department of Natural Resources, North East Regional Planning Commission and other groups for technical advice and council.

## Taking Maritime Academy Enrollments

TRAVERSE CITY — Northwestern Michigan College is currently enrolling students for both the June and September classes of its newly-founded Great Lakes Maritime Academy.

The Academy, a division of the two-year community college here, opened last fall with a pilot class of 13 students. The only fresh water maritime school in the nation, it was developed to train qualified high school graduates to serve as officers aboard commercial ships of the Great Lakes.

The 33-month maritime training program combines technical courses and liberal arts studies with spring and summer work experience aboard ships owned by the Academy and on ore carriers and other vessels that serve the Great Lakes. The Great Lakes fleet presently totals approximately 240 ships.

The new Academy is pointing towards a 300-student enrollment in five years. It will begin its next class on June 22. Start of the fall class has been set for September 21.

# Why pay up to \$259\* more for a compact when Maverick gives you all this?

Why pay more when Maverick saves you money right from the start? And however you figure it . . . size, power, economy . . . Maverick gives you more in the bargain!

Maverick is no lightweight. Its wide tread and stability makes for a sure grip on the road. Yet there's no excess weight to cause acceleration lag or reduce fuel economy.

Maverick is perky. Some competitive makes have four cylinders. Maverick's got a 170 CID six-cylinder that delivers 105 hp. It gets you up to expressway speeds in less than 15 seconds . . . without getting you in hock at the gas pumps.

Maverick is economical to drive. Test drivers averaged 22.5 mpg in simulated actual driving conditions. This means you could go up to 350 miles or more between gas stops.

Maverick is simple to park. It's less than 15 feet long and has a turning diameter of only 35.6 feet. So you can nip in and out of tight parking spots and tough traffic, easier than the big guys.

Maverick is simple to maintain. You can do it yourself. The Maverick Owner's Manual is packed with simple diagrams and instructions.

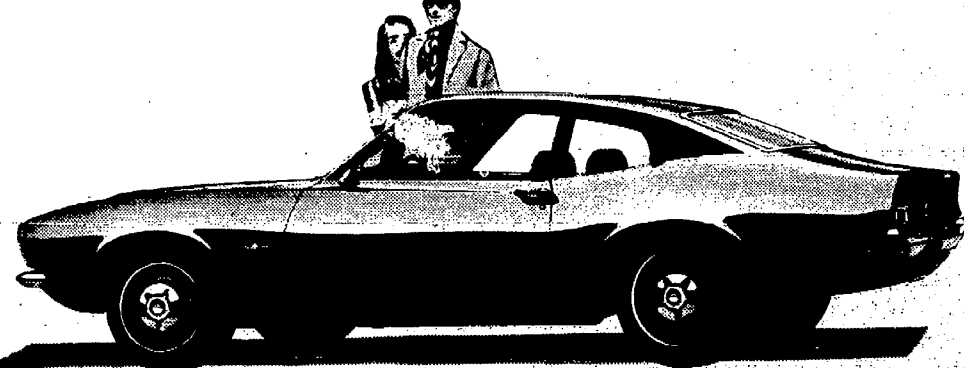

Maverick is easy to own. So easy, in fact, with its low, low price, that you can even move up to a jazzy Maverick Grabber and still beat that compact price.

Maverick is America's biggest selling small car. And that means you can expect top dollar resale value when it comes time to trade. Maverick just doesn't know how to stop saving for you.

MAVERICK

\*Based on a comparison of manufacturers' suggested retail prices including Chevrolet factory price reduction of \$160 for a six-cylinder Nova 2-door sedan.

## MAVERICK STILL \$1995†

†Ford's suggested retail price for the base Maverick model. White sidewall tires are not included, they are \$30 extra. Since dealer preparation charges (if any), transportation charges and state and local taxes vary, they are not included, nor is extra equipment that is specially required by state laws.

# 30 - And - Out -- Some New Twists

**Thirty and out.**  
We're going to be hearing a lot of that phrase in the next several months. It's a key bargaining aim of the United Automobile Workers in their impending negotiations with the Big Three auto makers.

Simply put, it means that any auto worker who has worked for thirty years would be eligible for retirement, regardless of how old he happens to be when he passes the 30-years-of-service mark.

Most retirement plans at present are geared to the age of the employee, and not the years of service. Sometimes age is combined with length of service — such as 60 if you've worked at a place for 30 years, or 55 if you've worked 35 years, or some such combination.

There's some merit, of course, in the 30-and-out proposal, and I'm sure we'll hear about some of the merits as well.

The same idea has been proposed for state employees. Rep. James B. Smith, of Detroit, chairman of the House labor committee, has suggested the 30-and-out plan for state civil service employees.

If the 30-and-out program gets established in the auto industry and in the public sector, perhaps we should take a hard look at yet another application of the same principle.

Why not limit the number of years any person could hold any elective job to 30 years?

This principle could extend to city councils, or school boards, or the courthouse gang, or state legislators, or congressmen, or anybody who is elected by the people, full-time job or part-time advisory post.

Thirty-and-out. That way we would be sure to get some new blood into the system, at least every 30 years.

Some states already have limits of one sort or another on some elected officials. For example, in some states the governor cannot succeed himself, or is limited to two terms; in Michigan, you can be governor for as long as the people will elect you, and a decade or so ago, it looked like G. Mennen Williams was shooting for 30-and-out.

The president, of course, can hold office only through two elections. Judges in Michigan cannot run for office after they are 70 years old, and Supreme Court Justice Harry Kelly is bowing out after this year for that reason.

But with our 30-and-out program for elected officials, Congress wouldn't have had the problem in Speaker John McCormack finally talking himself into finally retiring. And the seniority system in Congress also would undergo a shuffle.

But here's one added idea on the 30-and-out theme:

Why not limit any person to 30 years on any public payroll, or any combination of public payrolls?

In other words, 30 years from the day the

public employee or officeholder draws his first public paycheck, of any kind, he's automatically retired.

For example, a bright young man who starts life in his early 20's as a deputy sheriff or a city councilman, and then progresses to the state legislature, and finally to congress, would be done 30 years after his first public paycheck.

Or a teacher, who becomes a principal, and then a superintendent, would be out after 30 years on the public payroll.

This umbrella public service 30-and-out program would give more people a chance to benefit from the public treasury... sort of spread the largesse around a bit.

The plan might be somewhat difficult to administer, because public paychecks seem to appear in the damndest places, and at early stages. For example, personally I'd be almost done; my first taxpayer's paycheck came as an 18-year-old army private, and I've been in and out of government service at one level or another almost ever since.

I'm not going to hold my breath waiting for the 30-and-out program to be adopted for elected officials.

It would have to be approved by the state legislature and/or congress, and both bodies are controlled by members who have been on the public payroll for 30 years — or hope to be.

## Establishment is all wet

By Jim Fitzgerald

"It isn't just their long hair and goofy clothes," said John Straight. "But they act so silly. Getting high on grass and strumming guitars. It's disgusting."

John was talking about "those damn kids." He is a member of what the kids call "the Establishment" and he's proud of it.

"The so-called Establishment is what makes this country great," John Straight is fond of saying.

"I guess all my friends could be considered Establishment. I cannot deny membership myself. At my age, and with my paunch, I fit into no other category. I'm just not in shape for romping in the meadows with the Love Children. And I don't have time for protest marches. I must work or the milkman will be protesting non-payment of his

bill.

But I've got a problem, doctor. Every time my friends start talking about what's wrong with this country, I begin to squirm.

Hair is a good example. I know men who turn purple at the sight of a boy with long hair. To guys like John Straight, there's nothing worse than some dumb kid who doesn't get a short haircut every 2 weeks. He sneers audibly every time he comes near a long-haired male.

"They are all communists," he explained to me. "Only communists would disgrace this country by looking so terrible."

I usually argue with the Straights, even if they're buying the lunch. I don't care how a kid wears his hair. It's his hair, I figure. And that seems like a pretty fair attitude for The Land of the Free, doesn't it? There's

gotta be more important things to fret about.

John Straight says maybe I'm not a card-carrying communist but I'm certainly a pinko and I'd better watch what I say or I'll be buying my own lunches. The Establishment will disown me.

Well, I figure Ron Ziegler is a member of the Establishment. He's President Nixon's press secretary. The other day, at a Washington party, Ziegler was pushed into a swimming pool by a Democrat. He was wearing his best blue suit.

Ziegler didn't just glub-blub. The guy who pushed him was Len Bickwit, an employee of Senator Philip Hart. Ziegler enlisted the aid of 3 friends who promptly dunked Bickwit. Sly Bickwit slipped out of his suitcoat before he was tossed in the water. But Ziegler wasn't thwarted. He had the jacket

thrown in, too. "We got it as wet as we could get it," he later told Bickwit. So there, your grandfather's moustache.

It wasn't reported whether Ziegler and Bickwit and friends were boozing. But I'd hate to think they'd act that way sober.

My point is simple: Ziegler and Bickwit have short haircuts. Their clothes are conservative, when dry. They are full-fledged members of the Establishment.

Now, I wouldn't say it is dangerous to approach a full pool in the company of ANY man with a short haircut. I'll even concede all short-hairs who push clothed people into pools are not communists.

But they are obviously communist-inspired. Everyone knows the communists want to poison our water.

Don't invite Spiro Agnew to your pool party.

## Cramton Files Petitions

Using but a portion of the petitions circulated in his behalf in the four-and-a-half county 103rd legislative district, Louis K. Cramton, Midland Republican, filed formally with Secretary of State James M. Hare for the contest for the Republican nomination for state representative Friday in Lansing.

"I am trying to get thank you notes out to each person who circulated a petition but I am sure that in the rush of campaigning some may be missed. I can only hope that they will know that what they have done is greatly appreciated," Cramton said.

Cramton expressed regret to Hare that he had not made it to the legislature in time to work with him on the Secretary of State's highway safety legislative recommendations. Hare, a Democrat, is retiring from public life at the completion of his present term this December.

"Hare's recommendations — giving law enforcement officers better legal tools in getting the bad drivers — the destructive, irresponsible drivers off the road — will not be forgotten with his retirement from the Lansing scene," Cramton said.

"Highway safety is not a partisan issue — it is a life and death issue — and many of us will keep pushing for the adoption of laws successful in Oregon and Illinois — laws that are cramping the style of willfully irresponsible drivers," Cramton concluded and assured Hare his recommendations would not die.

The 103rd legislative district includes approximately one half of Midland county (the eastern half plus Sanford), all of Crawford, Gladwin and Roscommon counties, and all of Missaukee county except the city of McBain and the township of Richland.

## EXPEDITION FORCED AGROUND

By Richard S. Brown

Members of the Underwater Exploration Company from Detroit were guests of Mrs. Emily Adien, Star Route, M-72 over the Memorial Day weekend.

The underwater searchers had plans for a three day survival test on the AuSable — but plans went amiss when their raft, Sea Rover I (Exploration Company's rescue raft) was caught up dangerously by an overhanging tree near Louie's Landing and capsized. Supplies of food and scientific equipment were lost to the hungry waters of the river, thus forcing the expedition to discontinue. Luckily, no one aboard the small craft was hurt.

However, as Richard Brown, Operations Commander of the expedition observed, "The moods of rivers are always changeable — a person should be careful no matter how deep or shallow they are."

The searchers will return soon for another try at their survival program. They have to.

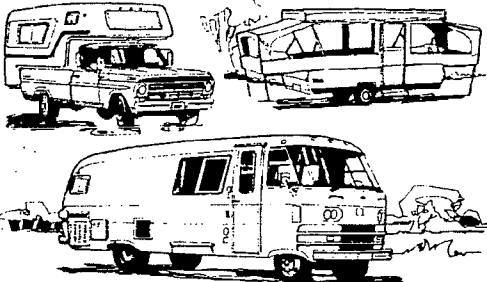

## NEW HOURS AT RURAL ELECTRIC IN BOYNE CITY

Beginning Saturday, June 6, 1970, Top O' Michigan Rural Electric Company's office in Boyne City will be open from 8:00 a.m. to 12:00 noon.

According to a Top O' Michigan Rural Electric Company spokesman, the increased hours are intended to give better service to persons who live in another part of the State and are applying for electric service in this area for the first time. Bills may be paid at this time.

This schedule will be in effect until Saturday, Sept. 26, 1970.

## CAMPERS: INSURE AND FINANCE YOUR VEHICLES AT AAA

INSURE your vehicle with the new Outdoor Living Package that offers broader and better comprehensive and collision coverage on owned, rented or borrowed motor homes, campers and trailers. For example, camper units on pickup trucks insured through the Exchange are covered up to \$500 if owned by the insured. Additional coverage to insure full value can be purchased from the Exchange. If the camper, motor home or trailer is borrowed or rented for 30 days or less, the units are automatically covered up to full value.

FINANCE your new recreational vehicle with AAA Member-Loan and save money, compared to usual bank rates. Available at all 57 Auto Club offices, through a special arrangement with several leading Michigan banks, Member-Loan is one of the most valuable benefits of Triple-A membership. Member-Loan helps AAA members save money on cars, boats and snowmobiles, too.

INTERPRETING THE NEWS

### By Elmer E. White Inspection Increase

If you own or operate a motor vehicle in Michigan, the odds are 4-1 that you'll be stopped at a motor vehicle inspection station sometime this year.

State Police Director Frederick E. Davids estimates that one out of every four motor vehicles in the state will be exposed to either a state or city inspection before the year is out. Davids said the percentage is the result of an increase in the inspection programs around the state.

The State Police inspection program has 12 check lane teams working throughout the state compared with eight last year, he said.

In addition, the cities of Ann Arbor, Saginaw, Kalamazoo, Sterling Heights, Livonia, Wyandotte and Muskegon will be conducting the same official inspection within their respective jurisdictions, he said.

The cities of Detroit, Flint, Grand Rapids, Dearborn, Oak Park, Lansing, Traverse City and East Lansing have studied the inspection program, and some have indicated they also will be operating one or more check lanes.

Davids urged motorists to obtain needed repairs on their vehicles and to see that their driver and vehicle credentials are valid.

For example, he said, in April 20,486 vehicles were inspected and 16,124 of them failed for one reason or another.

He said of the cars which failed, 5,435 received citations for various violations. Among these were 2,998 citations for driver license violations, including 145 for driving on a revoked or suspended license.

Here is a list of suggestions for motorists who want their cars kept in proper shape:

"Have the necessary repairs made to your car," Davids says. "Check your vehicle and driver credentials for validity and then contact your nearest State Police post or the police department of any of the cities holding inspection programs so you may learn where and when your car can be inspected."

"With these preparations, your chances of passing the inspection are excellent, and a windshield inspection sticker will be given to you indicating your success," he adds.

**Crime Hits Capitol**

Workers in the complex of buildings which make up the Capitol area in Lansing have been having increasing trouble with crime.

Gov. William G. Milliken himself has said there is a "very special and increasing crime problem in the Capitol Complex. The number of thefts has gone up dramatically in the last months, in the last year."

Milliken said he feels "We must move and move very quickly to increase the security of the Capitol."

Several proposals for coping with the problem are under consideration.

One came from House Speaker William A. Ryan. He suggested expansion of the parking lots surrounding the Capitol building to give more secretaries who work in the building a close parking space. Many of them now park in underground parking lots in the complex and some are afraid to go there at night.

This proposal met instant opposition, however, from persons who feel too much lawn and too many trees already have been torn up on the Capitol area.

Other proposals include a possible beefing up of the security forces in the Capitol; having Lansing police patrol it regularly; and better observation in such areas as the underground parking lot.

While serious in nature, the problem is still small enough that authorities feel they can cope with it. And they want to get it under control before it becomes too big.

"The Capitol is somewhat of a symbolic place in that it serves as a focus point for state attention," said one official. "So I guess maybe this is symbolic of the problems being encountered all over the state and the country for that matter."

"But it's a hell of a note when you can't feel safe in your own state Capitol," he said.

### Majority Floor Leader To Senator Toepp

LANSING—Sen. John F. Toepp (R-Cadillac), Senate Whip, was elevated to the key post of Senate Majority Floor Leader by his fellow Republican senators at a Monday night caucus.

Sen. Toepp, who recently announced that he would seek reelection as senator representing the 15-county 38th senatorial district, succeeds Sen. Robert VanderLaan of Grand Rapids, who was named Senate Majority Leader to fill the vacancy created by the resignation from that position of Sen. Emil Lockwood of Elm Hill.

The elevation of Sen. Toepp to Senate Majority Floor Leader in his first term in the senate is considered a signal accomplishment. Sen. Toepp served in the house of representatives before being elected to the senate in 1966.

"I sincerely appreciate the confidence my fellow Republican senators showed in electing me Majority Floor Leader," said Sen. Toepp.

"Much of the job of carrying the party's legislative program devolves upon the Majority Floor Leader. Changing of senate leadership in midstream, brought about by Sen. Lockwood's candidacy for the Secretary of State post, puts an added burden on those chosen to new positions."

"However, I intend to work closely with the administration, with Sen. VanderLaan and other senate officials in a sincere effort to bring our legislative program to a successful completion before we recess, hopefully in late June or early July."

With his selection as Majority Floor Leader, Sen. Toepp adds to his already prestigious senate assignments as member of the powerful appropriations committee, the joint senate-house capital outlay committee and the committee on interstate cooperation.

## Engagement Announced

Mr. and Mrs. Walter R. Smith of Grayling announce the engagement of their daughter, Patricia A. Smith of Rives Junction, to Robert H. Millikin, son of Mr. and Mrs. LeRoy Millikin of Roscommon. An August 1 wedding is planned.

## Announce Engagement

The engagement of James Lyle Budd, son of Mrs. Percy Budd of Grayling, and Cecilia Louise Johnson of Grand Marais, Minn. is being announced. A fall wedding is planned.

## Senior Citizens

(Continued from Page 1)

Rev. William McKnight of St. Mary's, Grayling, gave the invocation.

Mayor Derek McEvers welcomed the group, which took in 14 counties, to Grayling and also crowned the King and Queen: King, Fred Gardar, 90 of Au Gres, and Queen, Mary MacNeven, who will be 93 in July, from Grayling. The oldest man and lady present.

Miss Patricia Christian, our own Miss Grayling, greeted the guests and escorted the winners to receive their awards. Council on Aging President, John Alef, spoke to the group.

Richard Kirchner of Mt. Pleasant, was the official M.R.P.A. representative and presented the Outstanding Senior Citizen award to Crawford County's own Johanna Gorman, the Northeast District recipient. Leon Brunson, of Hale, was first runner-up.

The program consisted of a Hillbilly Mock Wedding by Hale Golden Agers; a Reading by Mrs. Martin — 83 years old — of Clare; Style Show by Alpena Senior Citizens; Reading by Mrs. Bernice Wilson from Onaway; a Knee Dance by Rogers City Senior Citizens; Trees, a solo by June Foldhauser. The entire program was very much enjoyed by everyone present.

The Afghan was won by Mrs. B. Strechler of Hale.

Door prizes were given throughout the afternoon, courtesy of our local merchants. R & H Sport Shop, A & P, and Josie's Flowers were added to the list in the news article from last week's paper. Also some of the merchants of the Chamber of Commerce provided favors for the Senior Citizens. The Senior Citizens at the Center made the Rose theme, as June is the Month of Roses.

ONE-CAP — OEO — sent the bus and the Salvation Army sent a bus driver.

The National Guards erected a tent at the Center for us to use to enlarge our small community space. Bob Hayes, of the Officers Club, allowed us to use the Officers Club House.

Nels Olson loaned us the "Mike System." Mr. Stripe sent a truck out with tables and chairs and the Junior Class set up the tables and chairs and cleaned up afterward. Our appreciation to the Senior Citizens who worked so hard, to the merchants, to all groups and all the individual friends who helped me so much. We do have a wonderful program in Crawford County for our Senior Citizens, but it does take a lot of help and cooperation from everyone. I have never been refused help on anything for the Senior Citizens. Apparently, we are all looking ahead.

Bulletins are ready at the Center and at the Grayling Bank for this month's activities. Please be sure and get one for June.

Lora Gould, Director

## Little League

By Harry Miller

A total of 59 runs were scored the first week of the Major League action.

Without a doubt the fans were thrilled by the lusty hitting of the youngsters. The managers and coaches on the other hand, looked more nervous than the teams, and are slowly but surely developing an ulcer and seeing their hair gradually turn gray.

The American League were off to a fast start as Ron Johnson's hard hitting nine slaughtered the Bear Archery team 12-5 and 9-1. Ron says "I sure slept good all week. The Bear team played well with an inexperienced squad. Larry Heric remarked, "We are defending Champs, everyone will be out to beat us."

The big Moose were on the right track, and the Bank said, "We were robbed. The first game the Moose nosed the Bank 11-3 and the next game the Bank made a strong 5th inning comeback and shot the Moose 10 to 8 in a slugfest.

The Minor League is practicing this week and start their season next Monday at 4:00.

One more plea to members of the following teams that have uniforms at home. Please return. Bank, 3 uniforms; Legion, 2 uniforms and 1 from the Moose. Check again and return them promptly. Thank you.
